

INSTRUCTIONS

Tip head back; spray two puffs of nasal spray into each side of the nose.

At the same time, take a deep breath through the nose twice a day!

Within one hour of administering, do not drink coffee or other caffeinated products.

See your doctor if Immunoglobulin-E (IgE) test would be a good protocol. Your doctor may question the endurance of your immune system to handle the antigens of bi-folded Alpha-Synuclein and Lewy Body destroyed particles by immune response!

If you having detox side effects such as headaches, changes in appetite, nausea or diarrhea, then stop treatment for up to three to ten days, or when detox side effects dissipate. Drink plenty of water.

Lemons, Ginger, Garlic, Artichokes, and green tea, along with fresh fruit, would be good in helping with detoxing!

Protect PD Antibody-101 away from X-Rays and strong magnetic fields or storing next to cell phones.

If you have any questions, send an email along with your phone number and we will get back with you.

Donate to help Parkinson's persons, to enroll in clinical trials!

As long as our finances hold out, we will continue to pay for your PD antibody-101 and monitoring, along with shipping and handling to Parkinson patients, like yourself. We are a non-profit and our only support comes from donations.
